- (75) Inventors/Applicants (*for US only*): LOBOZ, Charles, Zdzislaw [AU/AU]; 9/5 Endeavour Street, West Ryde, For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: STREAMLINING CPU UTILISATION BY DELAYING TRANSACTIONS

(57) Abstract: The present invention provides a method and system for scheduling a transaction request to a central processing unit in a computing system (11), comprising polling at least one central processing unit to determine the current load on the least one central processing unit (10), allocating the transaction request to one the at least one central processing unit (12), or if the current load is above a predetermined threshold, delaying execution of the transaction request for a predetermined delay time (14).
